Royalty Fees will be assessed on a per contract basis for firm, broker/dealer, and Market Maker transactions. For electronic executions in issues included in the Penny, Royalty Fees will be passed through to the trading participant on the "Take" side of the transaction.

Monthly Excessive Bandwidth Utilization Fee	Monthly Message to Execution Ratio	Monthly Charge
	Between 500,000 and 749,999 to 1	\$5,000
	Between 750,000 and 999,999 to 1	\$10,000
	1,000,000 to 1 and greater	\$15,000

The Monthly Excessive Bandwidth Utilization Fee is calculated on a monthly basis and shown in the table above. An OTP Holder or OTP Firm that sends less than 50 million messages per day on average during a calendar month will not be assessed the Fee. For the purposes of this Fee, a "message" is defined as a quote, order, cancel, or modification. The Fee will not be assessed for the first occurrence in a rolling 12-month period. The Exchange may exclude one or more days of data for purposes of calculating the Fee for an OTP Holder or OTP Firm if the Exchange determines, in its sole discretion, that one or more OTP Firms or the Exchange was experiencing a bona fide systems problem.

Participants in the FB Prepay Program qualify for rebates through the Manual Billable Rebate Program, payable on a monthly basis.¹⁷ As shown in the table below, the Manual Billable Rebate Program provides all Floor Brokers that participate in the FB Prepay Program a rebate on manual billable volume of (\$0.08) per billable side, and participating

Floor Brokers that achieve more than 500,000 manual billable sides in a month are eligible for an additional rebate of (\$0.02) per billable side, payable back to the first billable side. Participants in the FB Prepay Program may be eligible for additional rebates based on combined QCC and manual billable volume, payable back to the first billable side, as show in the table below. The calculation of volume on which rebates earned through the Manual Billable Rebate Program would be paid is based on transactions including at least one side for which manual transaction fees are applicable and excludes QCCs and transactions described in Endnote 12. Any volume calculated to achieve the Limit of Fees on Options Strategy Executions ("Strategy Cap"), regardless of whether this cap is achieved, will likewise be excluded from the Manual Billable Rebate Program because fees on such volume are already capped and therefore such volume does not increase billable manual volume.

Manual Billable Rebate Program

Qualifying Volume	Rebate per billable side
Up to 500,000 manual billable sides	(\$0.08)
More than 500,000 manual billable sides	Additional (\$0.02)

To participate in the FB Prepay Program, Floor Broker organizations must notify the Exchange in writing by emailing optionsbilling@nyse.com, indicating a commitment to submit prepayment for the following calendar year, by no later than the last business day of December in the current year. The email to enroll in the Program must originate from an officer of the Floor Broker organization and represents a binding commitment through the end of the following calendar year. Payment must be received in full by the close of business on the last business day in January. A Floor Broker organization that commits to the Program will be invoiced in January for Eligible Fixed Costs, based on annualizing their Eligible Fixed Costs incurred in November of the current year. A Floor Broker may join the Program after the first of the year by notifying the Exchange and prepaying Eligible Fixed Costs equating to \$10,000 for each remaining calendar month. Eligibility for rebates under the Program will begin on the first day of the month after payment to the Exchange. A Floor Broker organization that restructures while enrolled in the Program will maintain its status in the Program. The Exchange will not issue any refunds in the event that a Floor Broker organization's prepaid Eligible Fixed Costs exceeds actual costs.

BILLING DISPUTES

All fee disputes concerning fees billed by the Exchange must be submitted to the Exchange in writing and must be accompanied by supporting documentation. All fee disputes must be submitted no later than sixty (60) days after receipt of a billing invoice.

1. Fee will be based on the maximum number of OTPs held by an OTP Firm or OTP Holder during a calendar month.
2. This fee is in addition to the Market Maker Fee and will be billed on a per issue basis to the OTP Firm acting as LMM in the issue. This fee will not apply to Interim LMMs acting in accordance with Rule 6.82-O(b)(4). This fee will not apply to issues that have been designated as "closing only" and are subject to delisting by the Exchange.

Fees for issues with Average National Daily Customer Contracts of 0 – 100 will be capped at 50 issues per OTP Firm and any additional issues in this volume range will not be charged.

Fees for issues with Average National Daily Customer Contracts of 101 – 1000 will be capped at 50 issues per OTP Firm and any additional issues in this volume range will not be charged.

Fees for issues with Average National Daily Customer Contracts of 1001 – 2000 will be capped at 50 issues per OTP Firm and any additional issues in this volume range will not be charged.

3. This fee will apply to OTP Firms for which the Exchange is the Designated Examining Authority. An exemption from this fee will be granted to any NYSE Arca registered Floor Broker or Market Maker that effects at least 25% of all securities transactions, as measured in contract or share volume, on any options trading facility of NYSE Arca.

4. This fee does not apply to those firms subject to the \$2,000 monthly fee.

5. Manual executions exclude certain electronic transactions as described below.

A manual order that executes in part against one or more electronic orders or quotes resting on the Consolidated Book prior to executing against interest in the Trading Crowd shall be assessed the applicable manual transaction fee for the entire order. A manual order that executes entirely against one or more electronic orders or quotes resting on the Consolidated Book shall be assessed the applicable electronic transaction fee for the entire order. In either case, the contra-side electronic order or quote shall be assessed the applicable electronic transaction fee or credit. In order to be eligible for the manual transaction fee, all manual orders must be entered into the Exchange's Electronic Order Capture System. Manual orders that are entered into an order entry device approved by the Exchange and contemporaneously recorded into the Electronic Order Capture System are also eligible for the manual transaction fee.

6. For Electronic Executions, Post Liquidity Fees are credited and Take Liquidity Fees are charged (except that Firms and Broker Dealers shall be charged for electronic executions in non-Penny issues that post liquidity). Transaction fees do not apply to executions occurring during the Opening Auction. Penny issues trade as part of a Penny Interval Program in accordance with Rule 6.72A-O.

7. Firm Facilitation and Broker Dealer facilitating a Customer – Manual applies to any transaction involving a Firm proprietary trading account that has a customer of that same Firm on the contra side of the transaction, or a broker dealer facilitating a Customer order, where the broker dealer and the Customer both clear through the same clearing firm and the broker dealer clears in the customer range.

8. The calculations for qualifications for monthly posting credits or discounts only include electronic executions and the Exchange will include the activity of either (i) affiliates or (ii) an Appointed OFP or Appointed MM, per Endnote 15. Unless Professional Customer executions are specifically delineated, such executions will be treated as "Customer" executions in calculating qualifications for monthly posting credits or discounts. Customer equity and ETF option ADV does not include Electronic Complex Order Executions. The Exchange may exclude from the calculation of ADV contracts traded any day (1) the Exchange is not open for the entire trading day and/or (2) there is an Exchange System Disruption. QCC orders are neither posted nor taken; thus QCC transactions are not included in the calculation of posted or taken execution volumes. Orders routed to another market for execution are not included in the calculation of taking volume. Market Maker Total Electronic Volume does not include Electronic Complex Order Executions, QCC Transactions, or orders routed to another exchange for execution. Total Industry Customer equity and ETF option average daily volume ("TCADV") includes OCC calculated Customer volume of all types, including Complex Order Transactions and QCC transactions, in equity and ETF options. An affiliate of an OTP Holder or OTP Firm is as defined in NYSE Arca Rule 1.1(a). For purposes of calculating the executed Average Daily Volume ("ADV") of Retail Orders of U.S. Equity Market Share on the NYSE Arca Equity Market, a Retail Order must qualify for the Retail Order Tier set forth in the NYSE Arca Equities Fee Schedule.

9. Applies to OTP Holder proprietary orders ("F" origin code), QCC transactions, and broker dealer orders clearing in the customer range in all products, except for orders of joint back-office ("JBO") participants, and does not include Strategy Executions or Royalty Fees. A JBO participant is a Member, Member Organization or non-member organization that maintains a JBO arrangement with a clearing broker-dealer ("JBO Broker") subject to the requirements of Regulation T Section 220.7 of the Federal Reserve System. See also NYSE Arca Rule 4.16-O(c). For purpose of the Monthly Firm Cap, JBO participant orders are excluded because the Exchange is unable to differentiate orders of a JBO participant from orders of its JBO Broker and therefore is unable to aggregate the JBO participant's orders.

10. (a) Reversals and Conversions. A "reversal" is established by combining a short security position with a short put and a long call position that shares the same strike and expiration. A "conversion" is established by combining a long position in the underlying security with a long put and a short call position that shares the same strike and expiration.

(b) Box spread. A “box spread” is defined as transactions involving a long call option and a short put option at one strike, combined with a short call option and long put at a different strike, to create synthetic long and synthetic short stock positions, respectively.

(c) Short stock interest spread. A “short stock interest spread” is defined as transactions done to achieve a short stock interest arbitrage involving the purchase, sale and exercise of in-the-money options of the same class.

(d) Merger spread. A “merger spread” is defined as transactions done to achieve a merger arbitrage involving the purchase, sale and exercise of options of the same class and expiration date, each executed prior to the date on which shareholders of record are required to elect their respective form of consideration, i.e., cash or stock.

(e) Jelly rolls. A “jelly roll” is created by entering into two separate positions simultaneously. One position involves buying a put and selling a call with the same strike price and expiration. The second position involves selling a put and buying a call, with the same strike price, but with a different expiration from the first position.

(f) Dividend. A “dividend” is defined as transactions done to achieve a dividend arbitrage involving the purchase, sale and exercise of in-the-money options of the same class, executed the first business day prior to the date on which the underlying stock goes ex-dividend.

11. These fees will not be assessed on the customer side of transactions. Please refer to “Limit of Fees on Options Strategy Executions” section of this schedule for information regarding Royalty Fees associated with Options Strategy Executions.

12. Executions in options on NYSE Arca Equities-listed digital asset ETFs (excluding QCC transactions) will receive either an additional discount or an additional credit of \$0.05 per contract as follows. The additional discount of \$0.05 per contract will be applied on electronic take liquidity, manual, and electronic complex-to-complex executions and the additional credit of \$0.05 per contract will be applied to electronic post liquidity executions. Executions in options on NYSE Arca Equities-listed digital asset ETFs will not be included in the daily fee cap on strategy executions (i.e., the Limit of Fees on Options Strategy Executions) and will not be included in calculations for or rebates available through the Manual Billable Rebate Program.

13. QCC executions in which a Customer is on both sides of the QCC trade will not be eligible for the Submitting Broker credit.

14. Reserved.

15. Includes transaction volume from the OTP Holder’s or OTP Firm’s affiliates or its Appointed OFP or Appointed MM. An “Appointed MM” is an NYSE Arca Market Maker that has been designated by an Order Flow Provider (“OFP”) (as defined in NYSE Arca Rule 6.1A-O(a)(21)). An “Appointed OFP” is an OFP that has been designated by an NYSE Arca Market Maker. An NYSE Arca Options Market Maker appoints an OFP and an OFP appoints an NYSE Arca Options Market Maker for the purposes of the Fee Schedule, by each sending an email to optionsbilling@nyse.com. These corresponding emails will be viewed as acceptance of the appointment. The Exchange will recognize one such designation for each party. A party may make a designation not more than once every 12-months, which designation shall remain in effect unless or until the Exchange receives an email from either party indicating that the appointment has been terminated.

16. The maximum per contract credit applied to Professional Customer executions is capped at (\$0.49) for Penny issues and (\$1.00) for non-Penny Issues. This cap applies even if an OTP Holder or OTP Firm otherwise meets the criteria for higher credits per the Customer Posting Credit Tiers in Penny Issues, the Customer Posting Credit Tier in non-Penny Issues, or the Customer Incentive Program.¹²

17. Submitting Broker QCC credits and Floor Broker rebates earned through the Manual Billable Rebate Program shall not combine to exceed \$3,000,000 per month per firm. Submitting Broker QCC credits will not apply to any QCC trades that are included in the Limit of Fees On Options Strategy Executions.
